

Safely through your day in class

The VHS Linz is currently requesting people to keep to the following regulations:

Maintain the generally recognized social distancing.

Wash your hands before the course starts.

It is compulsory to wear a face-covering (mask or shield) from when you enter the building until you take your place in the classroom or office.

Mask and shields can be removed when visitors are in their seats. (Fixed places will be allocated with name cards and/or on a seating plan).

Please do not change the seating layout in the classroom.

In your own interests, please only use your own personal property. (mobile phones, pens, etc.)

In sport and exercise classes please bring your own towel to lie on.

Disinfectant and cleaning cloths are available to sanitize equipment (computers, exercise equipment, etc).

Please only come at the classroom a few minutes before the start of the course.

Where possible, avoid waiting in the area outside classrooms.

Please note that the courses must finish on time in order to allow the rooms to be aired.

We thank you in the interest of all of us!

If you have any questions, the VHS department running your course can be contacted by telephone or email.
